AUTHOR INDEX – 1979

Aanerud, Thomas W.
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Beason, Donald G.
Optimizing the Smoke Chamber, p. 81

Brauer, Diana P.
Effect of Construction, Substrate, and Piloting on Ignitability of Furniture Upholstery Fabrics, p. 26

Evaluation of Airfield Pavement Materials Based on Synthetic Polymers, p. 207

Casey, Colleen J.
Pyrolysis of Polymeric Materials: I. Effect of Chemical Structure, Temperature, Heating Rate and Air Flow on Char Yield and Toxicity, p. 140

Pyrolysis of Polymeric Materials: II. Effect of Chemical Structure and Temperature on Char Yield and Flammability, p. 227

Chang, H.
Ignition Characteristics of Flame Retardant Fabrics, p. 105

Corlett, Richard C.
Evaluation of Airfield Pavement Materials Based on Synthetic Polymers, p. 207

Croce, Paul A.
A Simple Aspirated Thermocouple For Use in Fires, p. 326

Cumming, Heather J.
Limits of Flammability of Organic Chemicals, p. 252

Deets, Gary L.
Smoke Reduction Studies on Selected Vinyl Polymers, p. 41

Durbetaki, P.
Ignition Characteristics of Flame Retardant Fabrics, p. 105

Edgerley, P. G.
Variations of Smoke Density with Heat Flux, p. 216

Fewell, Larry L.
Flash-Fire Propensity and Heat-Release Rate Studies of Improved Fire Resistant Materials, p. 274

Ford, Henry W. Jr.
Optimizing the Smoke Chamber, p. 81

Gaskill, James R.
Optimizing the Smoke Chamber, p. 81

Herrington, Ronald M.
The Rate of Heat, Smoke and Toxic Gases Release from Polyurethane Foams, p. 308

Hilado, Carlos J.
Effect of Construction, Substrate, and Piloting on Ignitability of Furniture Upholstery Fabrics, p. 26

Correlation of Arapahoe Smoke Particulate Date, p. 90

Pyrolysis of Polymeric Materials: I. Effect of Chemical Structure, Temperature, Heating Rate, and Air Flow on Char Yield and Toxicity, p. 140

Evaluation of Airfield Pavement Materials Based on Synthetic Polymers, p. 207

Pyrolysis of Polymeric Materials: II. Effect of Chemical Structure and Temperature on Char Yield and Flammability, p. 227

Limits of Flammability of Organic Chemicals, p. 252

Isshiki, Naotsugu
Downward Flame Spread Along A Vertical Sheet of Thin Combustible Solid, p. 3

Ito, Akihiko
Downward Flame Spread Along A Vertical Sheet of Thin Combustible Solid, p. 3

Kashiwagi, Takao
Downward Flame Spread Along A Vertical Sheet of Thin Combustible Solid, p. 3

Kishore, K.
Flammability of Polystyrene in Presence of Transition Metal Ions, p. 296

Kulkarni, Anil
Effects of N_2 and CF_3 Br on Extinction of Propagating and Fully Burning Fires, p. 263

Kurosaki, Yasuo
Downward Flame Spread Along A Vertical Sheet of Thin Combustible Solid, p. 3

Larsen, Eric R.
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

Lee, Y. C.
Smoke Reduction Studies on Selected Vinyl Polymers, p. 41

Little, Michael W.
Effects of N_2 and CF_3 Br OnExtinction of Propagating and Fully Burning Fires, p. 263

Ludwig, Ralph B.
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

MacLaury, Michael R.
The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Curd Silicone Rubber, p. 175

Matson, G. L.
Ignition Characteristics of Flame Retardant Fabrics, p. 105

Nagarajan, R.
Flammability of Polystyrene in Presence of Transition Metal IOns, p. 296

Newman, Jeffrey S.
A Simple Aspirated Thermocouple for Use in Fires, p. 326

Petrella, Ron V.
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Pettett, K.
Variations of Smoke Density with Heat Flux, p. 216

Powell, Floyd L.
The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

Prasad, G.
Flammability of Polystyrene in Presence of Transition Metal Ions, p. 296

Serizawa, Minoru
Studies on the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Sibulkin, Merwin
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Souma, Isao
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies on the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Shafizadeh, Fred
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Sparkes, Charles J.
Correlation of Arapahoe Smoke Particulate Date, p. 90

Susott, Ronald A.
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Tatem, Patricia A.
The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

Taylor, Robert D.
Optimizing the Smoke Chamber, p. 81

Tincher, W. C.
Ignition Characteristics of Flame Retardant Fabrics, p. 105

Wakano, Hiromutsu
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Williams, Frederick W.
The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

SUBJECT INDEX – 1979

Aircraft Interiors, Flammability
Flash Fire Propensity and Heat Release Rate Studies of Improved Fire Resistant Materials, p. 274

Airfield Pavements, Flammability
Evaluation Of Airfield Pavement Materials Based On Synthetic Polymers, p. 207

Arapahoe Smoke Chamber
Correlation of Arapahoe Smoke Particulate Data, p. 90

Aspirated Thermocouple
A Simple Aspirated Thermocouple For Use in Fires, p. 326

Biomass Gasification
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Bromine, Flame Suppressing Properties
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

Calcium Silicate
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies on the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Catalytic Fire Retardant
The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Cellulosic Materials, Pyrolysis
Pyrolysis of Polymeric Materials: I. Effect of Chemical Structure, Temperature, Heating Rate, And Air Flow On Char Yield And Toxicity, p. 140

Pyrolysis of Polymeric Materials: II. Effect of Chemical Structure And Temperature On Char Yield and Flammability, p. 227

Cellulosics
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Combustion
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Combustion Products
The Rate of Heat, Smoke and Toxic Gases Release from Polyurethane Foams, p. 308

Composite Material
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies on the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Crosslink Density
The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Extinguishing Agents, Measuring Effectiveness
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Extinction
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Fabrics
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Filler
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Fire Retardant
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies On the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Fire, Room
A Simple Aspirated Thermocouple for Use in Fires, p. 326

Flame Propagation
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Flame Retardants
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Flame Retardants, Mechanism
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

Flame Spread, Paper
Downward Flame Spread Along a Vertical Sheet of Thin Combustible Solid, p. 3

Flammability
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Flash Fire Propensity
Flash Fire Propensity and Heat Release Rate of Improved Fire Resistant Materials, p. 274

Flash Photolysis
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Forest Fuels
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Furniture Upholstery, Ignitability
Effect of Construction, Substrate, and Piloting On Ignitability of Furniture Upholstery Fabrics, p. 26

Gas Tempeature Measurement
A Simple Aspirated Thermocouple for Use in Fires, p. 326

Heat of Combustion
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Heat Release
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Halogen
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Halons, As Extinguishing Agent
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Heat Release Rate Studies
Flash Fire Propensity and Heat Release Rate Studies of Improved Fire Resistant Materials, p. 274

Ignition
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Ignition Frequency
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Kinetics
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Metal Ions
Flammability of Polystyrene in Presence of Transition Metal Ions, p. 296

Nitrogen, As Extinguishing Agent
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Ohio State Release Rate Apparatus
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Organic Chemicals, Flammability
Limits of Flammability of Organic Chemicals, p. 252

Oxygen Index
Effects of N_2 and CF_3 Br On Extinction of Propagating and Fully Burning Fires, p. 263

Passenger Seats, Flammability
Flash Fire Propensity and Heat Release Rate Studies of Improved Fire Resistant Materials, p. 274

Plastics, Smoke Densities
Variations of Smoke Density with Heat Flux, p. 216

Platinum
The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Polymers, Flame Retardant
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

Polystyrene, Flammability
Flammability of Polystyrene in Presence of Transition Metal Ions, p. 296

Polyurethane Foams
The Rate of Heat, Smoke and Toxic Gases Release from Polyurethane Foams, p. 308

The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

Poly Vinyl Chloride
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies On the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Pyrolyses
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies On the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199

Pyrolyzate Ignition
Studies On the Combustion of the PVC-XONOTLITE Composite System, p. 129

Pyrolysis, Plastics
Pyrolysis of Polymeric Materials: I. Effect of Chemical Structure, Temperature, Heating Rate, And Air Flow On Char Yield And Toxicity, p. 140

Pyrolysis of Polymeric Materials: II. Effect of Chemical Structure And Temperature On Char Yield And Flammability, p. 227

Release Rates
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Room Fire
A Simple Aspirated Thermocouple for Use in Fires, p. 326

Silicone Rubber
The Influence of Platinum Fillers and Cure on the Flammability of Peroxide Cured Silicone Rubber, p. 175

Smoke Chamber, Improvements
Optimizing the Smoke Chamber, p. 81

Smoke Density Variations
Variations of Smoke Density with Heat Flux, p. 216

Smoke Indices, Plastics
Variations of Smoke Density with Heat Flux, p. 216

Smoke Particulates, Plastics
Correlation of Arapahoe Smoke Particulate Data, p. 90

Smoke Reduction, PVC
Smoke Reduction Studies on Selected Vinyl Polymers, p. 41

Smoke Release
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Smoldering Combustion
The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

Spalding Mass Transfer Number
On the Mechanism of Halogen's Flame Suppressing Properties, p. 69

Spectroscopy
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Styrene
The Flash Photolytic Combustion of Styrene Monomer Inhibited by Halogen Compounds, p. 52

Temperature, Measurement, Gas
A Simple Aspirated Thermocouple for Use in Fires, p. 326

Thermal Analysis
A Quantitative Thermal Analysis Technique for Combustible Gas Detection, p. 94

Thermocouple
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 326

Toxic Gas Release
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Urethane Foams, Toxic Gases
The Rate of Heat, Smoke And Toxic Gases Release from Polyurethane Foams, p. 308

Ventilation Effects
The Effect of Ventilation on Smoldering Carbon-Impregnated Polyurethane Foam Fires, p. 240

XONOTLITE
Studies on the Combustion of the PVC-XONOTLITE Composite System, p. 129

Studies on the Pyrolysis of the PVC-XONOTLITE Composite System, p. 199
